

SHORT DESCRIPTION OF THE PROJECT

ETNOSPAZI - MUSEUM NETWORK IN THE HEUROOPEN REGION

PROJECT PROMOTERS	GeoPark Carnic Alps - DI Gerlinde Ortner	(PP2)
CONTACT PERSON	Comunità di montagna Canal del Ferro e Val Canale	(LP)
	Fondazione Museo Carnico delle arti popolari	
	'Michele Gortani'	(PP1)

INITIAL SITUATION Each partner designs ethnographic exhibition spaces dedicated to popular culture. The LP manages the "Palazzo Veneziano", the seat of the ethnographic museum of Malborghetto. In addition to the rooms dedicated to the historical way of life in the Canal Valley, there are exhibition rooms dedicated to the mining, forest and geology of the area. The PP1 manages the Carnic Folk Art Museum "Michele Gortani", one of the most important in the Alpine area, as part of the "CarniaMusei" museum network, which bears witness to life in Carnia from the 14th to the 19th century. The PP2 runs the Carnic Alps Geopark with its visitor centre that illustrates the geological and landscape features of the Carnic Alps.

PROJECT OBJECTIVES The aim of the project is to set up a museum network that illustrates the relationship between Alpine communities and the territory: starting from PP2, which explores the relationship between geology and the form of agriculture (the "high Alpine lands"), to PP1, which focuses its activity on rural life in the Carnic Alps (the cow as a symbol) and on traditional products, to LP, which tells the "life of man" in the Carnic Alps.

PROJECT CONTENTS

- WP 1 – Project management
- WP 2 - Communication
- WP 3 - Realisation of a series of ethnographic exhibitions in the HEurOpen area.
- WP 4 - The exhibitions take to the streets (organisation of cultural, tourist events)

SCHEDULE 01.03.2022 – 30.06.2023

COSTS Total project costs: € 200.000,-
Costs PP 2 € 84.000,-

FINANCING Promotion PP 2 € 71.400,-
Own funds PP 2 € 12.600,-
